

For Immediate Release – August 2018

Press Release - Advanex Europe Ltd.

Advanex Confirm New Factory In Czech Republic

Advanex has confirmed the opening the new manufacturing site in Czech Republic in Spring 2019. The new purpose built 7,300m² factory will be located in Horní Počernice.

The new factory comes as part of their ambitious growth plans in Europe. The new factory will involve Advanex investing €5 million in Czech Republic over the next 5 years.

As a leading supplier of precision components, the new factory will be largely focused on manufacturing precision deep drawn metal components, stampings, springs and pressings.

Advanex is working closely with P3 in Prague to ensure that the project management of the new factory runs seamlessly. The P3 logistics park on which the new Advanex factory will be located is the largest within the Czech Republic. The facility will be designed to accommodate 2 floors of office space and will have state of the art machinery and production lines. Advanex will embark upon a recruitment drive boosting employment in this area of the Czech Republic.

Steve Antcliff, Director of Advanex Czech Republic highlights, “We are proud to be launching our new facility as part of our, multi-million pound global strategy to grow the business. Locating our new facility in Horni Počernice is an ideal location offering a balance between the strong economy along with a highly skilled labour force. This will in turn create a platform to develop business within mainland Europe”.

The opening of the new factory will be celebrated with a launch event in early 2019. The event will be open door, allowing the chance to meet the company, people and facility.

Globally, Advanex have operations in 23 countries including the United Kingdom, Japan, China, America and Thailand and produce a range of metal components used in the automotive and medical markets, which include (but are not limited to):

- Compression springs
- Extension/tension springs
- Insert mouldings
- Insert collars
- Torsion wire forms
- Pressings
- Deep drawn metal tubes
- KATO® CoilThread® inserts
- Medical springs

As part of Advanex Inc. based in Japan, Advanex Europe are also active members of the SMMT and hold numerous quality accreditations and standards such as ISO 13485, ISO 9001, ITAF16949, ISO 14001 and are AS9100 certified.
